

TimeSpot®37 T&A terminal

We focus on customer benefits

- **Helpdesk: open 24/7, all year round.**
- **SLA and extended warranty: Free update of software and repairs.**
- **Customization: TimeTerminal has its own R&D and manufacturing.**

A long-life Linux powered industrial computer

TimeSpot®37 is our signature product and the most sold T&A terminal. It has an industry rating i.e. is resistant to extreme heat and cold. The touch screen is a resistive type 12" color TFT. This makes it easy to use and facilitates quick registrations. TimeSpot®37 brings flexibility with virtually unlimited number of functions which can be displayed according to the T&A software conditions and customer requirements.

What do users say?

In interviews on time terminals employees emphasize the terms "equal and fair". They appreciate the touch technology, the sleek, modern appearance and that no registrations are lost due to network interruptions (equipped with offline registration buffer).

The leading edge in T&A technology

TimeTerminal was first in the world in the year 2000 with touch technology for time terminals. The durability has exceeded

our expectations with over 6600 terminals delivered in the following years. More than 150 000 users register their time one to four times per day in Scandinavia, Germany, France and Japan!

Reliability

With a standard offline registration mode, time can be registered during network failures thanks to the inbuilt automatic buffer. WiFi or 3G modem are available options. Power can be supplied via PoE.

Identification methods

Personal identification via RFID tags/cards, magnetic stripe or bar code.

Technical Data:

CPU:

Cortex-A7 Dual Core

Memory:

Ram: 1 Gb

Flash: 8 Gb

Touch screen display 12":

Color TFT with resistive touch screen 190x250 mm
Resolution 1024x768 px

Communication Protocol:

UDP/IP, TCP/IP, XML/HTTP
alt. AJAX

Operating system:

Linux

LAN:

10/100 Base-T

Remote configuration:

TimeSpot® Management Interface

Employment records:

5,000 employees

Buffering:

10 000 registrations

USB

Mechanical design:

Painted metal alt. aluminium

Optional:

Modem

WiFi

PoE

Floor stand
