

TimeSpot®5

A small 'tough' wonder to make your Time and Attendance easier.

We focus on customer benefits

- **Helpdesk: open 24/7, all year round.**
- **SLA and extended warranty: Free update of software and repairs.**
- **Customization: TimeTerminal has its own R&D and manufacturing.**

Long-life industrial electronics

Time and Attendance terminals need to and should operate round the clock for years to come, which is TimeTerminal's core-philosophy. The robust construction of TimeSpot®5 stems from our T&A industry experience since 1980 and having produced over 6,500 terminals to date. Over 150,000 users register their time daily on TimeSpot® terminals in Europe.

Functions

Identification via RFID tag/card. IN/OUT registration via keys. OK/Alarm/Error via LEDs. Communication via LAN or GPRS-modem.

Technical advantages

Off-line registration mode as standard.

Technical data:

CPU:
Cortex-A7 Dual Core

Memory:
RAM: 1Gb
Flash: 8 Gb

Communication Protocol:
TCP/IP, HTTP

Operating System:
Linux

Network:
LAN 10/100 Base-T

RFID:
Standard EM or Mifare.
But most systems work.

Remote Configuration:
TimeSpot® Management Interface

Offline-mode Buffering:
100 000 registrations

Mechanical design:
Lacquered Zink-Aluminium
Wall Mount Bracket

Optional:
PoE (Power over Ethernet).
GPRS modem.
Battery backup.
Weatherproof (IP67).
Project and cost reporting.
Door access relay control.
Anti-theft cable lock.
